### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Warn on 9/22/06.
3. The application has been amended as follows:
  - Claim 3, line 1, "2" has been changed to --1--.
  - Claims 8-16 and 18-20 have been canceled.
4. The following is an examiner's statement of reasons for allowance: Examiner agrees with Applicant's arguments regarding claim 1. The prior art of record does not disclose or render obvious a motivation to provide for a transmission as defined by the limitations of claim 1; including an input shaft coupled to a transmission of a vehicle; a direct clutch assembly; a drum and band assembly; and a planetary gear assembly having a ring gear coupled to the input shaft, a carrier coupled to an output shaft, a sun gear coupled to a first set of clutch plates of the direct clutch assembly and the drum of the drum and band assembly; wherein the transfer case combines with the transmission of the vehicle to extend the gear ration range by providing an overdrive/underdrive gear ratio and a direct drive gear ratio in addition to gear ratios of the transmission. The transfer case of Frost'959 includes a compound planetary gear set having

Art Unit: 3681

double sun gears and a common ring gear, and three range clutches (82, 84, 86). The transmission of Sherman'639 is not a transfer case and includes a simple planetary gear set, and only two range clutches (12, 14). There is no motivation/suggestion to combine these two references.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ha D. Ho whose telephone number is 571-272-7091. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095.

7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
